*Due to the impact of the Coronavirus and COVID-19 during 2020 on State and local agencies, communities and programs; nominations for recognition were greatly reduced and the culminating ceremony scaled back. The Awards Subcommittee and the Maryland Community Policing Institute felt it appropriate to continue with the annual recognition of the outstanding efforts in the areas of Crime Prevention and Community Policing. Modifications were made to the awards' processes, as well as the ceremony, to accommodate health and safety protocols due to COVID, resulting in this well-deserved recognition. We are especially grateful to the award recipients for their perseverance in accomplishing their prevention goals during these unprecedented times and for those who persisted in the nomination of these agencies, officers, citizens and programs.*

# GOVERNOR'S CRIME PREVENTION AWARDS PROGRAM

2020

## History

In recognition of the important role that crime prevention plays in the reduction and control of crime in Maryland, a Governor's Crime Prevention Awards Program was established in 1980. The purpose of this program is to recognize those citizens, community groups, law enforcement agencies, and law enforcement officers who have made outstanding contributions to the furtherance of crime prevention in their departments and in their communities. To date over 3,600 Awards have been bestowed. These awards are given once a year.

## Development and Implementation

The Steering Committee of what was then the Maryland Community Crime Prevention Institute was given the responsibility for developing and implementing the Governor's Crime Prevention Awards Program. A special Subcommittee of the Institute's Steering Committee was formed to develop the awards categories and criteria. The categories and criteria were then voted on and approved by the full Steering Committee.

Each year the Governor's Crime Prevention Awards Program is announced in a letter to all law enforcement agencies throughout the State. Law enforcement departments are invited to submit nominations for individuals, departments, and agencies for each of the six categories. The 2020 categories were as follows:

- A. Law enforcement agency award - for a comprehensive crime prevention program.
- B. Law enforcement/correctional officer award - for officers whose primary responsibility is not crime prevention.
- C. Community group, organization, and individual citizen award.
- D. Law enforcement agency crime prevention program award - for outstanding proactive crime prevention program.
- E. Law enforcement officer award for performance of a specified number of residential and/or commercial security surveys.

*These categories and their criteria are subject to change from year to year as the Maryland Community Policing Institute broadens the scope of its activities.*

**Cpl. Ryan Saunders**  
*Anne Arundel County Police Department*

Cpl. Ryan Saunders is a member of The Anne Arundel County Northern District Police and Community Together (PACT) unit. His primary responsibility is to bridge the gap between the police department and the communities they serve through positive public interactions. He routinely engages with community leaders and constituents addressing local issues that are troublesome to our citizens.

Cpl. Saunders was instrumental in planning the Blueline Baseball Camp, which takes at risk children and other children who may be interested in a career in law enforcement and puts them through a 3-day baseball camp. He garnered the support of several local high school coaches who volunteered their time to teach various aspects of baseball to the participants. The goal of the camp is to promote positive life lessons and skills such as teamwork, character building, and self-pride. The program, which is funded by the department's Youth Activities Unit, concluded with a cookout for participants and a field trip to a Baltimore Orioles baseball game.

Cpl. Saunders also began weekly kickball games after school at Freetown Elementary and Overlook Elementary. The games were very popular and participation was open to any children who attend Freetown and Overlook Elementary School. The goal was to provide a positive interaction with our police officers and provide children the opportunity to see police officers in a different setting.

In October 2019, North County High School was presenting their "Human Experience" to Anne Arundel County High School students. The police department was tasked with setting up several simulations for students to walk through in order to gain a realistic perspective of how the opioid epidemic can affect so many young people. Cpl. Saunders jumped right in and spearheaded the department's involvement. He coordinated with other officers to volunteer their time and provided valuable input in how to make our scenarios as realistic as possible.

This is just a small example of what Cpl. Saunders has done for the Northern District Communities he serves to make them united and safer for all.

### **Residential and Small Business Video Mini Grant Program La Plata Police Department**

In an effort to combat thefts from automobiles, businesses and other residential property crimes, the La Plata Police Department (LPPD) in partnership with the Town of La Plata began a Residential and Small Business Video Mini Grant Program.

Implemented in July of 2019, the purpose of the program is to encourage local residents and small businesses to install video surveillance systems on the exterior of their properties to provide officers with images of those engaged in criminal activity. Grant recipients receive \$250 to aid in the purchase of security camera systems. A condition of the grant is that the grant recipient will share images captured with LPPD on active criminal investigations.

The goals of the program are two-fold. First, is for the cameras to provide an overt presence to discourage criminal activity. By making residences and small businesses “harder” targets because of overt cameras there would be less reportable crimes in La Plata.

Second, when crime does occur, to provide LPPD officers with video images of the criminal activity and those who are committing it.

Images captured through the mini-grant program have been used to confirm the identity of offenders which has led to the subsequent issuance of search and seizure warrants and the recovery of stolen property. Additionally, videos have provided investigators images from serious injury motor vehicle collisions.

Currently, the partnership between LPPD and the Town of La Plata has awarded 100 video grants, totaling \$25,000. The video mini-grants provide LPPD with 100 extra sets of eyes in and around the community. The video systems are spread throughout seventeen (17) different organized communities, residences not within an organized community and six small businesses.

**#9PMRoutine –La Plata Style**  
***La Plata Police Department***

In La Plata, larcenies typically occur in one of two ways, shopliftings or theft from motor vehicles. In the late summer, early fall of 2019, the La Plata Police Department implemented the #9PMRoutine –La Plata Style. Over the course of a year, residents have reported various items of property stolen from motor vehicles. In approximately 95% of these reported crimes, the vehicles were left unsecured during the overnight hours.

In an effort to combat thefts from vehicles, the La Plata Police Department implemented the #9PMRoutine – La Plata Style. Social media posts which are designed to remind residents to hide items of value left in their vehicle(s) overnight, lock their vehicle(s), and secure the garage door, are shared on Facebook, Twitter and Instagram.

The #9PMRoutine –La Plata Style utilizes over fifty (50) different pop culture style memes in an effort to make sure the message going out night after night is fresh, appealing to the eye, and to the viewers' sense of humor. It is the agency's goal to have residents, of all ages, and local homeowner associations share the posts on a regular basis.

A few months after the original implementation of the #9PMRoutine, the agency, its employees and town government officials began receiving positive feedback from members of the community about the nightly reminders and the associated memes. At times, residents would comment noting that the reminder made them find their vehicle's key fob to lock the doors.

La Plata Police Department experienced a 75% reduction in thefts from autos when including the #9PMRoutine –La Plata style in its countermeasures. Additionally, the program serves as a civic duty reminder to secure your valuables every evening, lock their vehicles, and to close their garage door.
