

Maryland Police and Correctional Training Commissions Professional Development Fund - Overview

I. HISTORY

For more than 10 years, the Maryland Police and Correctional Training Commissions (PCTC) staff has administered the Professional Development Fund (PDF). The Fund was added as a line item to the Department of Public Safety and Correctional Services' budget to allow for grants to be awarded to public safety entities. The Director of Grants and Special Projects administers the grant.

The intent of the Fund is to provide money for programs that are not able to be funded by agencies or departments. Examples of past awards include conference registration fees, specialized training, and equipment. All funds expended are expected to further the professional development of the recipients.

II. PURPOSE

The Maryland Police and Correctional Training Commissions' (PCTC) Professional Development Funds are used to support the development and implementation of outstanding training initiatives, research, and program development in the field of public safety.

The fund enables public safety professionals to provide and/or participate in evidence based programs or newly emerging training at little or no cost to the applicant. The benefits of funding training initiatives include the development of and implementation of programs, development of trainers, and the ability to purchase equipment.

The fund allows Maryland Public Safety Agencies to remain current on training, in the use of technology, and to benefit from other innovative techniques in public safety. The disbursement of this fund will assist with the professional development of police and corrections personnel focusing on the enhancement of public safety services to the citizens of Maryland.

The following may be funded through the PDF Grant:

- Development of training, by a public or private vendor, that addresses a specific topic or need for Maryland Public Safety Agencies.
- Contractual services with training providers who will bring specialized training to Maryland Public Safety professionals.
- Attendance at professional conferences by Maryland Public Safety professionals.
- Attendance (travel, per Diem, registration costs, hotel, etc.) at professional development training programs or conferences to include training for trainers in an area of specialization.
- Purchasing a commodity (i.e. specialized equipment that supplements existing equipment) or a service that would not otherwise be available to the agency.
- Other services, training, and/or equipment purchases as approved by the Professional Development Grant Review Committee of the PCTC.
