Persons who complete this course will be awarded the following certification.

**Certificate**  
**Status**  
**For Period**

### Course Description

This course is designed for patrol officers as an introduction to Improvised Explosive Devices (IED). Participants will get an overview of various IED and homemade explosive components and the foundational knowledge of functions and classifications. Participants will learn proper safety precautions and procedures for responding to unattended suspicious items. By using model IED and homemade explosives, participants are able to view a real life example of an IED.
